PROFILE

Computer Science graduate with professional internship experience and strong foundation in technology, problem-solving, and customer-focused communication. Experienced in working collaboratively in professional IT environment, managing assigned tasks, following structured procedures, and learning new technologies and systems. Strong interest in cloud computing, artificial intelligence, and Microsoft technologies, with the ability to communicate technical concepts clearly and work effectively with different stakeholders.
Adaptable, detail-oriented, and eager to apply technical expertise to customer-focused solution engineering and AI transformation initiatives in Qatar.

WORK EXPERIENCE

06/2026 – 12/2026

Mannai Corporation — Doha, Qatar, *AI Intern – IT Solutions Department*

- Developed a **Proof of Concept (POC) for document extraction** from **environmental permit application forms** by designing a custom schema and creating and training an analyzer using **Azure AI Content Understanding**.
- Developed **Python code** to process documents and extract structured field values, testing and refining the solution to improve extraction accuracy across document samples.
- Gained hands-on experience with **Azure AI Foundry, Azure OpenAI, Python, Azure AI Content Understanding, and Content Intelligence Studio**.
- Attended technical workshops and training sessions focused on **Content Intelligence Studio** and **Azure AI Content Understanding**.
- Earned the **Microsoft Certified: Azure AI Fundamentals (AI-901)**

03/2024 – 03/2025

Freelance Web Developer

- Developed responsive **web applications** with backend and database integration.
- Integrated **REST APIs and third-party services** to enhance functionality.
- Used **Git** for version control and deployment workflows.
- Collaborated with clients to deliver **user-focused solutions**.

EDUCATION

09/2021 – 09/2025
Halifax, Canada

Bachelor of Computer Science, Dalhousie University

- Dean's List (2025)
- Sexton Scolar (top academic performance in the term)

Relevant Coursework: Algorithms and Data Structures, Programming Languages, Databases, Network Computing, User Interface Design, Calculus, Web Development, Software Development, Operating Systems

09/2021

Secondary Education, (Cambridge Ordinary Level/ Edexcel Advanced Level

- Cambridge Ordinary Level - 7 A*, 1 A (A* for Computer Science)
- Edexcel Advanced Level - 4A (Biology, Physics, Chemistry, Further Mathematics), 1A* (Mathematics)
- Studied at Stafford Sri Lankan School of Doha (SSLSD), Qatar

SKILLS

Core Skills
Customer Service | Communication | Teamwork | Problem Solving | Time Management | Organization | Attention to Detail | Adaptability

Frontend Development
React | Tailwind | CSS | HTML

Backend Development
Node.js | Express | REST APIs

Technical Skills
Microsoft Office | Python | JavaScript | SQL | Git | Azure AI Foundry | Azure OpenAI

Databases and Concepts
MongoDB | Firebase | SQL | Web Integration | Software Development | UI/UX

Tools & Technologies
Git | GitHub | Postman | CI/CD (Basic) | Linux

CERTIFICATIONS

- Professional Certificate in Python, Informatics Institute of Technology
- Certificate in Communications Technology & Cyber Security, Dalhousie University
- Certificate in Web & Mobile Development, Dalhousie University
- Microsoft Certified: Azure AI Fundamentals (AI-901)

PROJECTS

06/2026 — **AI Document Extraction,** *Environmental Permit Processing*
Developed and tested a document extraction solution locally using Python, Azure AI Content Understanding, and Content Intelligence. Created a custom schema and analyzer, then implemented Python code to analyze documents and extract structured information from environmental permit applications.
Tech Stack: Python, Azure AI Foundry, Azure AI Content Understanding

01/2025 – 04/2025 — **CarVision,** *Mobile App*
Developed a mobile application for car exploration and comparison with a clean, intuitive interface, improving user efficiency by 20% and supporting real-time data updates.
Tech Stack: React Native, JavaScript/TypeScript, Firebase, REST APIs, Prototyping

05/2025 – 08/2025 — **CartCloud,** *Full-Stack E-Commerce Platform*
Developed a full-stack e-commerce platform supporting multi-vendor operations, product management, and checkout workflows, with backend services and API-based integrations.
Tech Stack: React, Node.js, Express.js, TypeScript, MongoDB, Netlify.

09/2021 – 12/2021 — **Instagram Reposting Behavior,** *Social Media Research Project*
Conducted research at Dalhousie University in 2021, analyzing user engagement patterns and designing a prototype for an Instagram repost feature before reposting was introduced as a native feature
Tech Stack: Canva, Research Methods, User Testing, Usability Testing

LEADERSHIPS

01/2024 – 04/2024 — **Project Leader**
Provided peer support in programming and networking, delivered presentations, and contributed to team-based software engineering projects, enhancing collaboration, communication, and project delivery skills.

01/2021 – 01/2023 — **Vice President and Treasurer Council**
